Memorial Day Is Observed

Wrangell paid tribute to the dead soldiers and sailors, Tuesday by a very appropriate program.

After a very stormy forenoon the rain slacked up about one o'clock and a goodly number turned out to the exercises at the wharf.

Rev. Corser opened the program with prayer after which Mr. Inman gave a short talk. The children sang "Scatter the Flowers" and threw flowers that they had gathered into the sea in honor of the dead sailors, and after "Taps," blown by George Northrup, the assembly embarked in numerous gas boats and went to the cemetery to decorate the graves.

The evening service was held at the Red Men's hall and one of the largest crowds that has gathered in Wrangell for some time was present and the following appropriate and pleasing program was rendered:

Song, "America"	Audience
Prayer	Adj. Smith
Song	Quartette

Recitation	Talitha Ensley
Solo	Mrs. Neil
Address	Rev. Clark
Song	The Children
Recitation	Alice Kincaid
Song	Quartette
Reading	Miss Clark
Hymn	Audience
Memorial Service for the Departed	
Brother by Stikine Tribe No. 5,	
Improved Order of Red Men.	
Taps	George Northrup

Music for the day was furnished by the Kake Brass Band Association, the native band of Kake, composed of fifteen pieces.

Baring none this is one of the best Memorial day programs that has ever been rendered in Wrangell and the band did much to improve the program.

Telegraph Sails

The Telegraph embarked yesterday on her second trip up the Stikine. Mr. and Mrs. F. D. Cheney, Mrs. Oscar Anderson and "Moose" McKay took passage for Telegraph Creek.

Flag Day

June 14th, is the 134 birthday of "Old Glory" and will be observed as Flag Day

The Sentinel is in receipt of the following communication from the office of the Governor.

Juneau, Alaska, May 27, 1911, To the Mayor and Newspapers of all Towns throughout Alaska:

Wednesday, June Fourteenth, nineteen hundred and eleven, will be the One Hundred and Thirty-fourth birthday of "Old Glory", known as Flag Day. There is no day in the year more appropriate for patriotic teaching. The Flag as an object-lesson has no rival.

It is not only a thing of beauty, but every item of its construction is significant. The story of its evolution, its birth as the emblem of a new nation, its long service without defeat or dishonor, should be familiar with every child in our schools. Our Flag stands for honor, purity and obedience to law.

I heartily recommend that Flag Day be appropriately observed throughout Alaska by all citizens, schools and societies. Let the flag appear everywhere, over church, schoolhouse, factory, dwelling, public and private buildings, and at the masthead, showing reverence for all it represents.

Wm. L. Distin,
Acting Governor.

Amur On Rocks

Canadian Pacific Steamer Goes on the Rocks in the Wrangell Narrows

The Humboldt brought down the news of the Canadian Pacific Steamer Amur going on the rocks in the Wrangell Narrows Tuesday night in the fog.

The forward hold has some water in it but the vessel will be taken off without much damage to the hull.

Public School Closes

The Wrangell Public Schools will close Friday June 9th.

In the evening an entertainment will be given at the Red Men's Hall, the proceeds of which will be devoted to purchase of encyclopaedias and supplementary books for the school library.

As a workman with insufficient tools is handicapped, so is a student with out reference books.

By the addition of a few books each year, a "working library" that will be a source of pleasure and assistance may be acquired.

The program which begins at 8:30 P. M. will be followed by a dance, following is the program:

Song	"If We Were You"	School
Address		Thor Hofstad
Recitation	"Our Hired Girl"	Belle Hood

Song	"Lullaby"
Talitha Ensley,	Annie Lewis,
	Alice Kincaid

Recitation	"Pa Wont Play With Me"	Andrew Engstrom
------------	------------------------	-----------------

Recitation	"Who Was Lost?"	May Goodrich
------------	-----------------	--------------

Duet	"The Soldier and the Red Cross Maid"	Patience Collins
		Ned Lemieux

Monologue	"How I Tended the Baby"	Adolf Engstrom
-----------	-------------------------	----------------

Drill	Twelve little girls
-------	---------------------

Recitation	"Pa's Chicken"	Helen Hofstad
------------	----------------	---------------

Recitation	"Young Philosopher"	Henry Ronning
------------	---------------------	---------------

Song	"Cuckoo"	School
------	----------	--------

Recitation	"Dead Pussy Cat"	Gussie Leonard
------------	------------------	----------------

Address	Foster Miles
---------	--------------

Song	"Your A Grand Old Flag"
------	-------------------------

Church Birthday

Next Sunday is the birthday of the church. And will be celebrated at St. Philips church by holy communion in the morning at 10:30 and by appropriate music and sermon at the evening service. The subject of the address will be "Dreaming Dreams and Seeing Things".

All are cordially invited.

Get Ready for the Fourth

Some very good things have been prepared on short notice but there is more chance for mistake (and regrets) in quick action preparations than in those that have time in plenty.

The 135th anniversary of our independence as a nation is fast approaching and it is coming to Wrangell as quickly as to any other town. If there is to be a celebration in Wrangell the time for preparation is already limited to one month. There will be a band to select, a speaker to choose a number of committees appointed and, and, etc., and you cannot do it yourself, neither can someone do it for you but there is only one month's time in which to organize.

Don't wait and then hurry. If there is to be a celebration let it be one without a regret.

Trout fishing did you say? You will catch plenty if you buy your gear from Patenaude. Everything you need to catch 'em with.

Base-Ball

To have or not to have--that is the question.

Whether Wrangell shall keep on existing without a baseball ground and team or whether she shall take it upon herself to provide one of the best forms of recreation for its representation of Young America.

Baseball is recognized as the great game of America. It is interesting throughout its several stages from the 6 year old vacant lot variety to the high grade amateur and professional article.

Baseball is a good school. It develops the wit, makes for quick thinking and teaches one to control his temper.

It takes its followers out into the air where health is, and it gives its principals muscle-building active and interesting exercises.

Enough for the general good of the game, but how does it effect Wrangell? So far it has had no effect whatever and Wrangell is

certainly the loser.

The proposition as it stands in Wrangell is not as difficult as many believe. The first necessity is a place to play. The best and only practical location for a diamond is at the head of the bay on land owned by N. L. Moen. The soil is solid, easily drained and not hard to clear, all of course subject to the one condition. (whether Wrangell really wants to have a ball park). Mr. Moen is willing to give a lease of the grounds for three years and in the event of his selling his dairy property will reserve the lot which includes the ball park location and give it outright to the town of Wrangell for baseball purposes. Mr. Moen says that he can get a man to clear the field for the small sum of sixty-five dollars and if there isn't enough Young America in Wrangell to clear it up and make a good diamond by getting out and digging at spare time or by giving financial aid to hire labor, then let us play marbles.

In the matter of getting a team and providing suitable equipments it is a sad condition when a town of Wrangell's size cannot show two or three teams, and several business men have already expressed their intentions of helping equip the club as soon as a ball field is produced, so it is up to us and to you to deliver the goods.

If you are a fan, a bug or a player of either the vacant-lot, amateur or professional degree; if you feel the least bit rebellious toward the present baseball conditions of Wrangell, then turn out to the indignation meeting at St. Philips Gymnasium next Saturday evening

A New Industry!

Read up on the utilization of farm waste products and wood waste by distillation.

A general consideration of the NEW INDUSTRY, including a full description of the distilling apparatus used and the principle involved, also methods of chemical control and disposal of the products, first edition illustrated by seventy-four engravings, 150 pages. This book is cloth bound, it will be sent to any address post paid on receipt of \$3.20.

Write for practical hand book on the fermentation, distillation of denatured alcohol from farm products and wood waste, INCLUDING TAX-FREE ALCOHOL LAWS and TRADE SECRETS. A plain statement of facts for those interested. 280 pages, 60 illustrations, 12 mo., cloth, price \$1.20, postpaid.

Having exported German Stills in large amounts for many years and having a number of agencies in the far East, we are now open to establish additional agencies and invite correspondence to look after our old customers and prospective buyers of our Modern Simple Tax-Free Industrial Alcohol Distilling Apparatus, by special successful demonstrative methods for making alcohol, Apple-Jack, Aguardiente, Mescal, Tegulia, Peach brandy, Whiskey, Solidified Alcohol in Cubes, Etc., also Denatured Alcohol. Most modern simple 5 Gal. Still and all sizes to 500 Gal. Daily Capacities. Good Commission. Address,

The Wood Waste Distilleries Co., Inc.,
Wheeling, W. Va. U. S. A.

and register your kick, and talk over the plans for a ball field which a summing up of the baseball conditions, shows is all that is necessary to put Wrangell on the map as regards the National game.

Jurisdiction In Alaska

Important Decision of Court of Appeals Places all Alaska Transportation Companies under Control of Interstate Commerce Commission

Washington, D. C., May 25.—Late yesterday afternoon the Interstate Commerce commission was directed to take jurisdiction of railroads and other transportation companies in Alaska, by writ of mandamus issued by the circuit court of appeals which body held that Alaska is a territory within the meaning of the act of congress regulating commerce.

The writ was issued in the case of the Humboldt Steamship company vs. White Pass railroad, which case requires the railroad to file their schedules and rate, it being alleged they were giving other steamship lines a better rate on through business to interior Alaska points.

Union Services

Sunday evening, May 28, the G. A. R. Sunday service was held at the Presbyterian church. The music was rendered by the Presbyterian choir. Mrs. Neil was the soloist. Rev. H. P. Corser, of the Episcopal (St. Philip's) church was the preacher.

The theme of the sermon was "It is for us to consecrate" with special reference to Alaska conditions. It was shown how the "Interests" used the dive and the brothel to support them and how all their attempts against free government would be as a pop gun against a mountain without their support. The speaker then suggested one or two remedies for Alaska conditions. One was that the law be so changed that the schools be supported by the money appropriated for the courts, and that the courts receive their support from the licenses.

As it is now, the more immoral a town is, the better schools it can have, and the consequences is, in most every community in Alaska, most any degenerate can get a license, if he has the \$1000 bribe to offer to a community.

L. B. Adsit, of the Seattle Tent and Awning Co. has been calling on the trade people of the town this week:

Wm. Foster and daughter and Mrs. Simpson and daughter of of Telegraph, went south on the Dolphin to Victoria and Vancouver B. C. respectively.

The Northland made this port Wednesday morning. She unloaded 100 tons of coal for J. G. Grant and a large consignment of beer for C. H. Borch.

Chas. Babbage, formerly a jeweler at Juneau, and for several years at Seward and Cordova, committed suicide at Cordova on May 22.

J. H. Ribbuck, a Delaware Indian, passed through on the Dolphin, on his way to the Kuskokwim country where he will teach a school for the natives.

F. E. Stewart, D. W. Wing and C. Larson returned from a hunting trip to Lake Bay country. They bring back a large black bear, a black and two gray wolf pelts, and lots of stories.

Troubled with dandruff? It may be light and fluffy and not appear dangerous at the present time but if neglected it will become matted—that will mean loss of hair. Nyal's Hirsutone will prevent it.

The Dolphin took fifty boxes and ten tierces of salmon south; twelve boxes for C. M. Coulter, eleven for Sam Cunningham, twenty-seven for Pacific Coast and Northern Packing Co. and ten tierces for Rasmus Enge.

You know that dandruff means baldness—it keeps collecting, forms layers and robs the hair of nutrition. The first application of Nyal's Hirsutone will loosen up the dandruff and supply nourishment.

Collins and Dudley, who have been to Marble and Orr Islands looking up the marble prospects of the country, returned Tuesday afternoon being out sixteen days. They bring some fine samples of marble and it is generally expected that something will be done in the near future toward putting the product on the market.

STORAGE BATTERIES, guaranteed not to sulphate. Cheaper than dry cells. Come in and see us about 'em. Wrangell Light and Power Company, at Power House.

Obituary--Wells

Last Monday morning at 3 A. M. Master William Wells, age 5 years, son of Mr. and Mrs. William Wells, died at his home in Wrangell of spinal meningitis.

He has been ailing for the past two years and about two months ago his ailment became localized in his spine, since that time the disease progressed steadily until about two weeks ago when symptoms of brain involvement were manifested.

This is the sixth child Mr. and Mrs. Wells have lost, and the fourth to go with similar trouble and the bereaved parents have the sympathy of the whole community.

Alaska's Twenty Million

In 1880 gold was produced in Alaska to the value of \$20,000. In 1909 the amount mined was valued at \$20,000,000. In 1888 silver was first produced in Alaska to the value of \$2,181; in 1909 the value was \$76,194. In 1902 copper was first produced to the value of \$41,400; in 1909 the value reached \$536,211. These and other statistics of production are shown by Alfred H. Brooks, of the United States Geological Survey, in "Gold, Silver, Copper, Lead and Zinc in the Western States and Territories," published as a separate chapter of the volume "Mineral Resources of the United States in 1909."

"Placer and lode mining of gold in Alaska in 1909," says Geologist Brooks, "showed marked progress over that in 1908, both in the actual gold production and in the advances made in preparation for more extensive operations."

"The copper output was less than in 1908, chiefly because the low price of this metal did not encourage mining, but nevertheless much was accomplished toward the preparation of a large future increase in copper productions." These final figures for 1909 are but slightly different from the preliminary estimates made by Mr. Brooks nearly a year ago. The figures of 1910 are now at hand and the report for the year will soon be issued by the Survey.

Lack of Coal a Handicap.

"The delay in issuing patents to coal lands retarded the industries in 1909, especially in mining," says Mr. Brooks. "The high price of coal along the Alaskan seaboard, due to the non-development of the coal fields, places a serious handicap on the mining industry. It has also had an indirect effect on mining by retarding railway construction."

There is no doubt, Mr. Brooks further states, that the present inadequate mineral-land laws are a serious handicap to placer mining. They tend to discourage the bona fide miner and prospector to the advantage of the speculator, whose particular aim is to obtain control of large areas of prospective placer ground without any real attempt at development.

Fairbanks the Largest Producer.

The Fairbanks placer district is still the largest producer of gold, Seward peninsula being second and the lode mines of the Juneau district third. Ketchikan still leads in copper production. Continuation of construction on the Copper River Railway stimulated prospecting in the Chitna district.

About three-quarters of the gold produced in Alaska comes from the placer deposits, according to Mr. Brooks. This ratio will not, however, continue, for the production from auriferous lodes is increasing much more rapidly than that from

(Continued next week.)
